

the **Return** of the **Monarchs**
 & other pollinators too!

at the
2015 Idaho Native Plant Society
PLANT SALE
SATURDAY, APRIL 25,
10am-1pm

celebrate the **Return** of the **Monarchs!**

The Pahove Chapter of the Idaho Native Plant Society & the MK Nature Center invite you to celebrate our Idaho State Insect, the Monarch Butterfly and other native pollinators by planting wildlife friendly plants that are well adapted to the Treasure Valley's soil and climate.

Choose from a wide selection of plants & talk to knowledgeable botanists about the best fit for your yard. Your purchases help support INPS, the MK Nature Center & benefit our native pollinators, birds and wildlife. There will be no waiting line at the entrance again this year allowing shoppers more time to browse.

For the first time in years area gardeners had several sightings of Monarchs in 2014. This year we are featuring Showy Milkweed, *Asclepias speciosa*, because our state insects and other native pollinators are dependent on this vital plant.

Check the INPS website: www.idahonativeplants.org for the plant availability list. It should be posted by April 20th. Questions? Call Susan 867-6188

INPS Members Only Sale: Friday, April 24: 5-7pm
